Penjelasan metrik:

frequency / n_videos : jumlah video (dlm video yg dikomentari HCC ini) memuat hashtag tsb
n_users_exposed : jumlah akun anggota HCC yg pernah mengomentari video berhashtag tsb
hashtag_uses_per_account : frequency / n_users_exposed -- konsentrasi eksposur hashtag

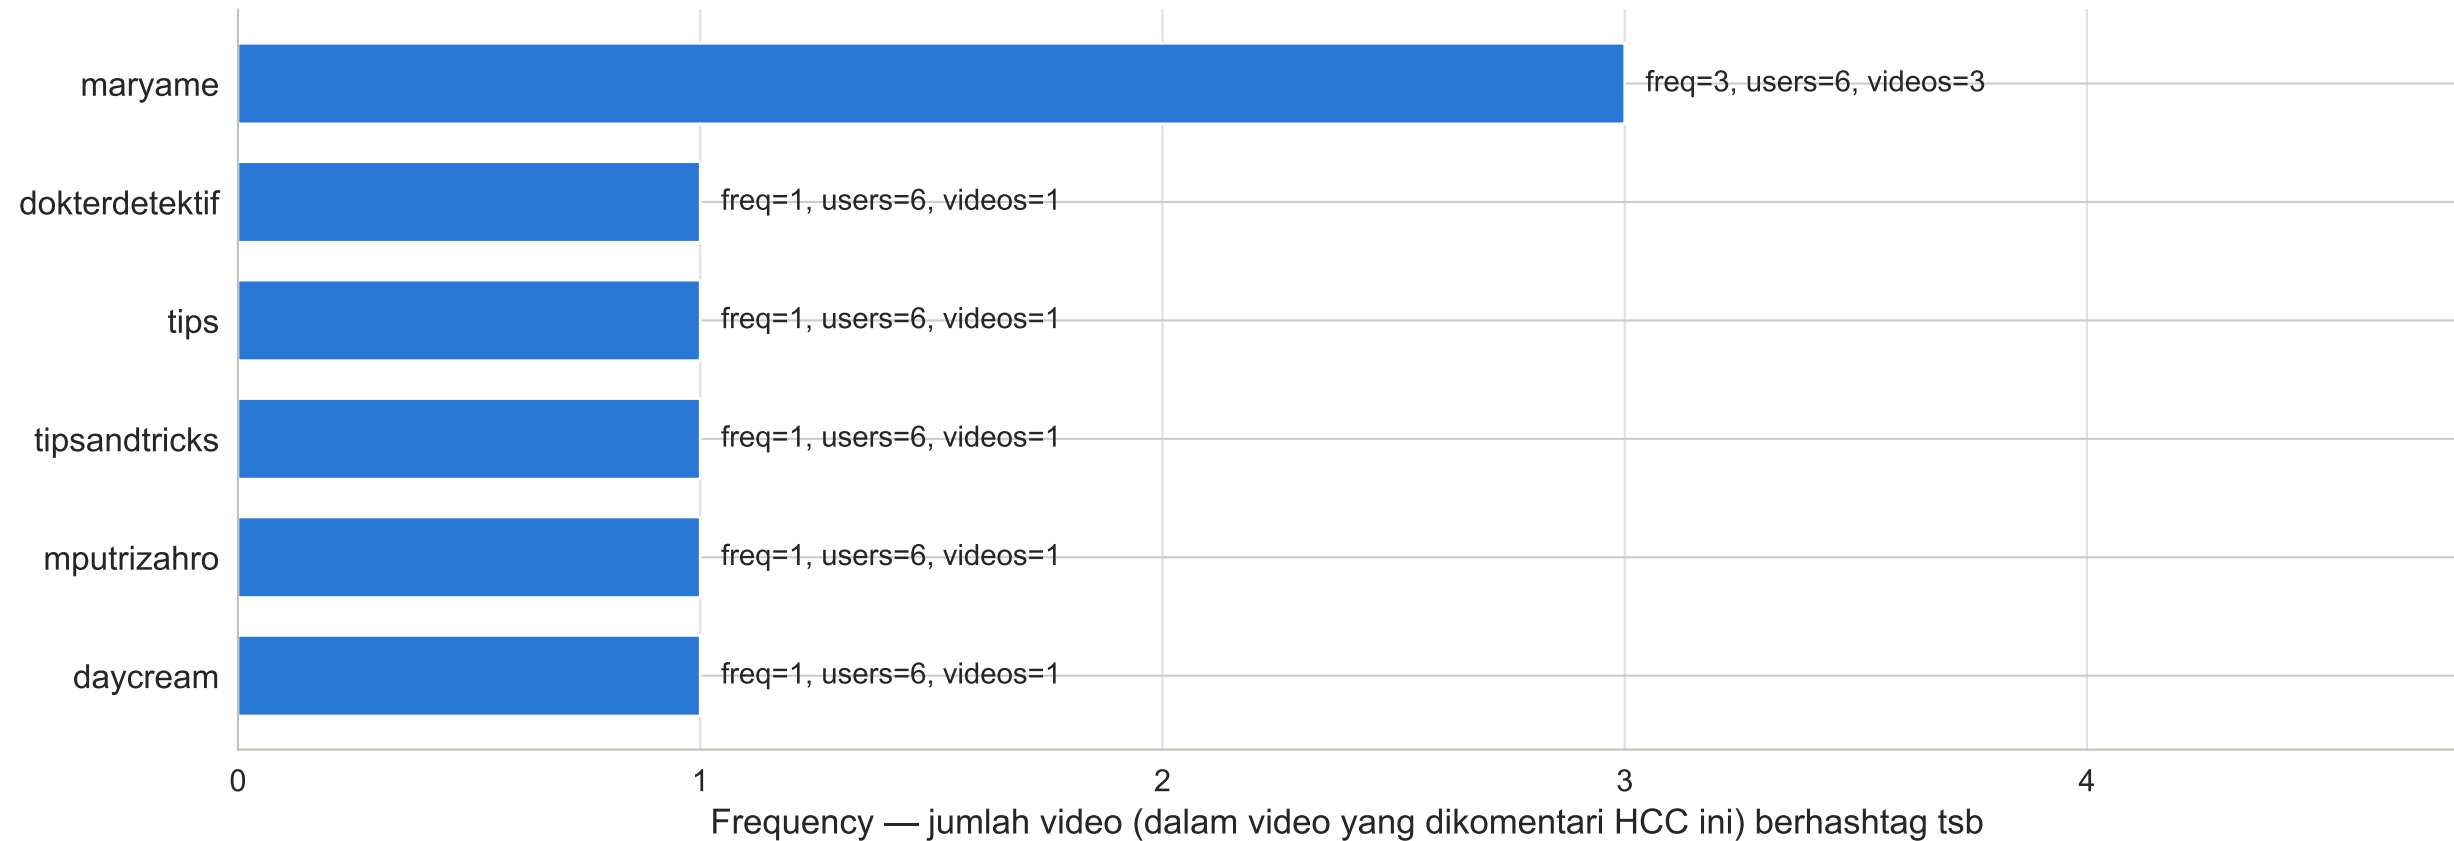

Catatan metodologis: hashtag bersumber dari metadata video (video_metadata_clean.csv), bukan teks komentar. Interpretasi: akun HCC "terpapar/beraktivitas pada video berhashtag X", BUKAN "menuliskan hashtag X di komentar". Lihat Section 16.0 & 16.1.2 untuk detail lengkap. Grafik ini murni karakterisasi/validasi HCC -- tidak mempengaruhi LCN/Louvain/FSA_V/jumlah HCC.
